General

Repository name

francescsolsonatehas.github.io

Rename

☐ Template repository

Template repositories let users generate new repositories with the same directory structure and files. [Learn more about template repositories.](#)

Default branch

The default branch is considered the "base" branch in your repository, against which all pull requests and code commits are automatically made, unless you specify a different branch.

main

Releases

☐ Enable release immutability

Disallow assets and tags from being modified once a release is published.

Social preview

Upload an image to customize your repository's social media preview.

Images should be at least 640x320px (1280x640px for best display)
